See my paper on "Theory of Wished Thing"!
date?

(just after ~~identical~~? 1958? (see Danian, Lippa
(Hansen paper: 1960?))

emphasize "wished" (~~description~~) from ambiguity
and high importance

But what is wished? Bureaucratically
(non-Robinson Crusoe!) "worse" (not every cap.,
intentions) may be be "better" — for Br's
agency's budget & role!

see Cholabi, OSP, etc. (!)

Oct 20, 2002 NIE!

etc.

|| Which was (more) wished?

Any-How estimates, in 1959-61
or USAF?!

What is "worst case" — in which direction?

Can you admit what is "worst," what "best"?

The greatest danger to US (& world)
security has always been the US nuclear
weapons programs. (Second: the effect on SU, and
imitation of SU; 3 - on others)

Threat has always been from inside

- to prevent ~~that~~ ^{external}
- for isolation
